PROJECT DESCRIPTION

Rural Health Association of Tennessee (RHA) invites proposals from qualified individuals and/or organizations to update and rebuild our Tennessee Rural Health Dashboard. The purpose of the dashboard is to answer the common question "What is rural" and serve as a comprehensive data source of rural facilities in Tennessee. Preference is for the data to be built in Tableau and RHA will embed the data and maps into their existing webpage.

SCOPE OF SERVICES

- Apx. 1-hour Project Kick Off meeting with RHA staff.
- Map a design for the Tennessee Rural Health Dashboard to include:
  - Rural Health Facility data and map visualization (Current)
    - New: Add skilled nursing facilities and behavioral health providers
    - New: Uninsured Adult Safety Net providers data and visualization
  - Healthcare Professional Shortage Area data and map visualization (Current)
  - Health Insurance Coverage areas data and map visualization (Current)
  - Poverty Rates data and map visualization (Current)
  - County Profile (Using above data) (Current)
  - Delta Region Maternal Care (using RHA collected data) (Current)
- Build the content including data, visuals, and user instructions in Tableau and/or other recommended system, owned by RHA.
- Apx. 1-hour Training with RHA staff on how to use the dashboard.

PROPOSALS

Interested persons should submit a proposal via email to jacy@tnruralhealth.org with title: *Rural Health Dashboard.* Please include name of people who will work on the project, expected timeframe, expected costs.

Proposals may include any suggested "Add on Services" such as complementary data, annual upkeep, etc. Please list costs for these services separately from the primary scope of services.

Indirect is limited to 10%.

RHA is requesting proposals be submitted by October 31, 2025. There is flexibility on start and project completion timelines.
